

Valet Drop-off/Pickup

Drop off:

Students will be dropped off from your vehicle (do not get out). Follow the map to go through the valet line. Staff will be outside to help students move safely from your vehicle to the building. Busses will unload in the back of the building as usual.

Pick Up:

Please follow the map guide for forming a valet line and stay in your vehicle. Staff will load the students in order of the cars. Do not pass - stay in line. This will get quicker after just a few days. You will tell the person at the end of the block who you are picking up and we will have students ready. Thank you

Busses and walkers will be released as usual. If you have the option to drop off and pick up your child instead of riding the bus, we appreciate you doing so, to help with social distancing. Students will be in assigned seats with family members.

Thank you so much for your support and communications as we all move through this together!
